

Construction-related erosion can cause problems for downgradient property owners, clog storm drains, create flooding problems on adjacent streets, and lead to the sedimentation and silting of streams, reservoirs and other water bodies.

Uncontrolled erosion is costly, violates state and federal pollution laws, and exposes those with oversight authority (landowners, developers, contractors, municipalities and consultants) to legal liability.

Fortunately, during construction most erosion and sediment problems can be prevented or greatly reduced through proper planning and implementation of simple and low-cost effective control practices.

NPDES Requirements – New and redevelopment performance standards require implementation of best management practices (BMPs)–including incorporation of treatment measures–in new and redevelopment projects during and after construction to minimize pollutant discharges for the life of the project.

Workshop Benefits: Acquire understanding of the general permit requirements and how to comply; learn simple and effective BMP tools for your projects; receive information on monitoring, documentation, site plan update, sampling and management approaches to stay in compliance; gain exposure to post construction/stormwater management techniques.

A G E N D A	
8:00 am	Registration and Continental Breakfast
8:30 am	Welcome
8:45 am	Construction Regulations & Responsibilities: CWA, NPDES Local Responsibilities On-Site Responsibilities Inspection and Maintenance Enforcement Post Construction Requirements
10:00 am	Break
10:15 am	Effective Erosion and Sediment Control BMPs, Inspection, Monitoring and Sampling Question and Answer
11:30 am	Video – “Hold on to Your Dirt”
12:00 pm	Lunch and Vendor Exposition (Lunch provided)
12:45 pm	Site Plan Update Procedures
1:30 pm	Post Construction
2:00 pm	Demonstration Site Visit Proper Installation Procedures and Vendor Expo (Transportation will be provided; site visit will be conducted rain or shine; please dress accordingly)
4:00 pm	Adjourn

REGISTRATION

FEE \$90.00
